

HALO | HALO - CEILING MOUNTED - 1000 | HALO-1000-C

DESCRIPTION

A futuristic ghostlike semi transparent form. The success of this design results from an ingenious clip device which has enabled us for the first time to attach the ball chain to itself! This allows for dynamic and distorted curves to be created. The idea is inspired by Antoni Gaudi who used inverted chain models in the structural design for the Sagrada Familia.
